

Kwikstrut[®]

Company Profile

The power behind **your mission**

**Johnson
Controls** 

A global company with a strong local presence

The KWIKSTRUT® product range contains the following product lines:

- Metal framing products and fittings
- Pipe supports
- Suspension fasteners
- Electrical supports
- KWIKSTRUT Q range with an innovative QFNH

Complete support solutions

When construction layouts or piping arrangements make it necessary to deviate from standard hangers or supports, we can supply you with customized support solutions. These are designed by our Product Engineering department in our certified manufacturing facility to ensure their quality.

Quality Assurance

KWIKSTRUT – A famous brand for products that reflect bespoke quality. Due to the fact that our manufacturing facility is ISO 9001 certified and our distribution channel is ISO 9002 certified, we can proudly say we deliver quality goods through quality channels.

Our mission is to advance safety and reduce installation times by finding smarter ways to fit systems, improve businesses and protect where people live and work across the world. Our global presence, local knowledge, diversified product ranges and investment in research and development mean we can offer a complete solution, from design, manufacture and installation to outstanding after-sales support and training. Our strength lies in our KWIKSTRUT® portfolio, a collection of some of the world's most trusted and recognized mechanical and fire suppression products.

Short lead times

With well over 2,000 different products in stock in our Regional Distribution Centres in Enschede - Holland, Lüneburg - Germany and Manchester - United Kingdom and our local warehouses in, Norway, Sweden, France, Germany, Austria, Spain, Italy, Hungary and in the United Arab Emirates, most of our products are supplied from stock. Customized materials and assemblies combining different products are available in a short time.

Systematic Quality Checks

Throughout our organization we keep a close eye on quality. We build quality into our high performance products, which carry many European and Industrial approvals, through innovative design. We build quality into our organization through the systematic checks that are the basis of our ISO 9001 & 2 certifications. Our organization sees each market individually and tailors its approach to individual market needs. Our local people and local warehouses make sure that you get what you need, when you need it. Supporting our local approach are the Regional Distribution Centre's with a total capacity of over 30.000 square meters throughout Europe.

Technical service assistance

With the assistance of our in-house engineering department we can assist you in the design of your installation, help with material take-off and selecting the right product for the right application. If you have to calculate channel systems, ask for our software tool KWIKDesigner.
